

MUTUA MiTutela

Provident and Relief Fund -
“Cassa”

mutuamitutela.com

WHAT IS MUTUA MITUTELA?

It is a Provident and Relief Fund in accordance with the Italian law n. 3818/1886, which acts in a cooperative spirit and aims to safeguard the health and quality of life of its members, spreading the culture of mutuality and risk prevention.

It is a non-profit company which operates domestically and is inspired by the principles of mutual solidarity.

Verlingue S.p.A. offers their Clients who wish to join it for medical and welfare benefits while enjoying tax benefits and contribution incentives.

It is set up with the aim of creating a widespread supplementary healthcare system which can effectively respond to citizens' protection needs, optimising the economic resources already used by families in the healthcare industry.

WHY JOIN THE MITUTELA PROVIDENT AND RELIEF FUND?

Four good reasons

1

The current Italian Consolidated Income Tax Act (TUIR art. 15) provides that 19% of membership contributions paid by legal persons to provident and relief funds up to a maximum of € 1,291.14 can be deducted. The deduction does not cumulate with other deductions such as life, accident or social security policies and is reserved for provident and relief funds only.

2

Its Members are the core of the provident and relief fund around which the business is organised.

3

The social purpose of the provident and relief fund is the exercise of mutuality, which confers on the member the status of member, with the consequence that mutuality arises at the moment a person enrolls in the provident and relief fund and ceases with their termination or death.

4

It guarantees its associates quality and certainty for continuity of services.

THE ADVANTAGES OF BEING A MITUTELA MEMBER

Access the provident and relief fund without medical questionnaires (max 65 years old)

Enrollment age max 75 years old

Extend coverage to your family nucleus at a modest supplementary contribution

Termination only possible by Associates, not the “Cassa”

19% tax incentive of the contribution from your tax return

Worldwide coverage
